I am opposed to the proposed changes to the Universal Service Fund. I urge the FCC to carefully consider the impact of these changes on consumers before changing the current system. Charging \$1 or more per month regardless of how much or how little we use our phone is not fair. This will greatly increase the cost of phone service and it could impact the ability for myself and others to afford landline and/or wireless service.

The proposed change is especially unfair for low-volume users that rely on wireless service for safety and security, and who make few, if any, long distance calls. A contribution system is fair, equitable and nondiscriminatory and should be left alone. Please do not penalize wireless phone customers.
